Sample: DUALGLO GLOSURROUNDS  
Laboratory No: S0706881/SJG

## DETAILS ON TEST RESULTS

The date of testing should be taken as between the date of the initial receipt of the sample and the date of the issue of the report unless otherwise specified.

Both the front and rear aspects of both sets of surround were subjected to the 650°C glow wire test as described in BS 5733:1995.

The sample material must self extinguish within 30 seconds of the withdrawal of the glow wire and any molten drops must not cause the test tissue paper, spread below the sample, to catch fire.

**Pass**
